EDUCATION

Western Governors University
Bachelor of Science, Software Engineering, Java

Graduated Apr 2025
Salt Lake City, UT

PROJECT

Employee Management System | [Live Demo](#) *Full-Stack Enterprise Application*

Designed and developed a comprehensive employee management system with role-based access control:

- Built Java Spring Boot backend with RESTful APIs, JPA/Hibernate, and JWT-based authentication
- Created PostgreSQL database schema with relational models for employees and departments
- Developed React/TypeScript frontend with organizational chart visualization components
- Implemented security features including role-based authorization and password encryption
- Deployed containerized application to cloud infrastructure
- *Technologies:* Java, Spring Boot, Spring Security, JPA/Hibernate, PostgreSQL, REST APIs, React, TypeScript, Docker, Git

WORK EXPERIENCE

VC3, Inc **Oct 2023 – Present**
Internal IT Systems Engineer II *Remote*

- Internal IT operations for 850+ staff MSP supporting 1,800+ municipalities and businesses across North America
- Contributed to IT infrastructure integration across 9 acquisitions and 20 offices in North America.
- Built internal automation tools in PowerShell and Python to streamline onboarding and configuration tasks, reducing repetitive IT work and improving ticket KPIs
- Served as an escalation point for cross-team infrastructure and automation issues.
- *Technologies:* PowerShell, Python, VMware, Hyper-V, Microsoft Azure, Intune, Entra ID, Microsoft 365

NOC Analyst II **Sep 2022 – Oct 2023**

- Managed backups and disaster recovery for 1,000+ servers across 150+ client environments
- Led org-wide migration of backup software, improving speed and reliability of server restores
- Deployed 600+ RMM hardware and virtual probes and built PSA automation to streamline monitoring from these devices

Accent Computer Solutions, Inc **Aug 2019 – Sep 2022**
Jr. Systems Administrator *Rancho Cucamonga, CA*

- Delivered Tier 1/2 internal IT support for server hardware, Active Directory, Exchange, server maintenance, and network configurations

CERTIFICATIONS & SKILLS

- **Certifications:** Amazon Web Services (AWS) Certified Cloud Practitioner, ITIL 4 Foundation - IT Service Management, MS-900 Microsoft 365 Certified: Fundamentals
- **Skills:** Java, Object-Oriented Programming, Spring Boot, Spring Security, JPA/Hibernate, SQL, RESTful APIs, Git, Docker, Python, PowerShell
